Diego is fit and healthy. At _____ years old, he is Ol Pejeta's only patrol/attack dog and goes on patrol everyday with the armed unit team to check for any possible intrusions into the Conservancy.

On a typical day _____ wakes up at 06:30hrs and goes through his normal grooming. This includes the handler checking for any _____ on his body, any injuries or thorns on his _____ from the previous night's patrol, brushing his skin and then cleaning his teeth.

He will then go on a walk with his _____ to warm him up before his training. On his return, he will practice his skills. Diego is trained on patrolling, searching and attacking. This means that his training has to incorporate teaching and reinforcing the commands that he needs to follow from his handlers in the event of an incident like 'drop', 'go' or 'stay'. All these help the handlers work better with him during patrol or a possible poaching threat.
